

TREASON ?

The White House Administration have, over the last twelve months, provided at least 600 tons of military supplies, including anti-aircraft and anti-tank guns, plus cash, to Islamic groups fighting in Syria,

President Obama claims they are “moderate” groups but overwhelming evidence confirms that they are Al Qaeda affiliated groups who openly state they are anti-American. CIA operatives have been training these terrorists in the use of the weaponry which potentially could be used against U.S. commercial air traffic.

Both parties in Congress vehemently opposed this action but the President waived a provision of federal law which prevents the supply of arms to terrorists. According to an unconfirmed intelligence report from Israel some of these weapons have been smuggled to the Muslim Brotherhood in Libya and Egypt.

One of the main charges for treason is “Knowingly aiding and abetting enemies of the United States, thereby undermining national security.”

---+---

Iranian officials have reported that U.S. military bases in Bahrain and the Indian Ocean base at Diego Garcia Atoll are within range of Iranian missiles. This contradicts findings of the Space Research Center at the Fisher Institute and is seen as a piece of deception to force the U.S. to agree to Iranian terms regarding sanctions relating to their nuclear program.

---+---

Mahmmoud Abbas, head of the Palestinian Authority, recently formed a unity government with terrorist organization Hamas.

According to Hamas spokesman, Ihab al Ghussein, Abbas told them “When I go out and say that the government is my government and it recognizes Israel and so on – fine. These words are meant to trick the Americans.”

The “trick” appears to be working because our dumb administration said last Monday that it would “work with” the new unity government. (Yet another treasonable offence!) It is also continuing to send financial aid to the P.A.

President Obama claims that the new government does not include Hamas (Can he not read?) yet at least three Hamas leaders have been sworn into the new government.

Hamas has also insisted that they have full control of the new government. This obviously contradicts the statement by Abbas that it is “his government” and shoots holes in Obama’s claim.

Diplomatic officials have confirmed that President Obama has been having “behind the scenes” talks with Hamas for a number of months.

Terrorism seems to be alive and well and living in the White House!
