

Uncovered Muslim Brotherhood Documents Could Put Obama in Prison

KRIS ZANE — [AUGUST 31, 2013](#)

In early 2012, Muslim Brotherhood presidential candidate Mohammed Morsi pranced around Egypt proclaiming “Jihad is our path,” and thought there was nothing better than to die in the cause of Allah—that is, *the exact language used by terrorists!*

Despite this, Barack Obama gushed on national television after Morsi was elected President of Egypt. And oddly—or not so oddly—Obama continued to gush over Morsi while reports surfaced that the Muslim Brotherhood were setting up [torture chambers](#) for their political enemies, not to mention [openly crucifying Christians!](#)

When Morsi was deposed, the Egyptian military discovered a treasure trove of documents linking the Obama regime with the illegal activities of the Muslim Brotherhood.

One such document is a list of Muslim Brotherhood officials receiving secret bribes in U.S. currency, paid out by the U.S. consulate, amounting to millions of dollars.

Investigative journalist [Jerome Corsi](#) has obtained a copy of the document held by the Egyptian military, proving the Obama regime sent millions of dollars in bribes to the Muslim Brotherhood.

But who was managing all of this money? Did the Muslim Brotherhood walk around with hundreds of thousands of dollars in their pockets?

Enter [Malik Obama](#), Obama’s half brother. According to Egyptian television, citing the [Supreme Constitutional Court of Egypt](#):

The President’s brother...is one of the architects of the major investments of the Muslim Brotherhood.

We’re not just talking about the bribes the Muslim Brotherhood received in Egypt, but the entire Muslim Brotherhood finances—worldwide—that more than likely included an astounding [\\$8 billion dollar bribe](#) to the Muslim Brotherhood made by [the Obama regime](#). The bribe was payment to guarantee that the huge tract of Egyptian land, the Sinai Peninsula, be turned over to the Muslim Brotherhood sister group Hamas, undoubtedly to put Israel in an indefensible position. The Muslim Brotherhood and Hamas mince no words about their goals for Israel: *total annihilation*.

According to [Egypt Daily News](#), a document exists showing the eight billion dollar “holocaust” agreement with the Obama administration that was signed by former Muslim Brotherhood President Mohammed Morsi and his second in command Khairat Al-Shater, both under arrest by the Egyptian military for murder and treason.

Does this document really exist, showing the \$8 billion dollar bribe signed by Obama or one of his representatives?

Undoubtedly.

According to Khairat Al-Shater's son, Saad Al-Shater, prior to being arrested by the Egyptian military, his father was in possession of information linking Obama with the Muslim Brotherhood *that he says would put Obama in prison.*

As reported by a multitude of [Arabic news sources](#):

In an interview with the Anatolia News Agency, Saad Al-Shater, the son of a Muslim Brotherhood leader, the detained Khairat Al-Shater said that his father had in his hand evidence that will land the head of United States of America, President Obama, in prison.

If the Egyptian military releases this document, it would no doubt spell the end of the Obama presidency, bringing impeachment, a long prison term, *and perhaps even the death penalty.*
